New Delhi, India

## Summary

I hold a **Bachelor's degree** in Technology from **Maharaja Surajmal Institute of Technology**, specializing in **IT**, with a **CGPA** of **8.14**. Currently, I serve as an Associate **Software Engineer** at **Accenture Solutions Pvt. Ltd.**, contributing to the development of a versatile React and Next.js **composable commerce component** library.

## Skills

- **Language:** JavaScript, TypeScript, Java
- **Version Control:** Git, Azure DevOps
- **Content Management System:** Contentful CMS
- **Testing:** Cypress, React Testing Library
- **UI/UX:** Figma
- **Component Library Management:** Bit.dev
- **Front-End Technologies:** ReactJS, Next.js
- **Software Development Life Cycle (SDLC)** - JIRA
- **Database:** MongoDB
- **Others:** GraphQL, Prisma, Planetscale, Neon, Aiven, Netlify, Vercel.

## Work Experience

**Accenture Solutions Pvt. Ltd.** | Associate Software Engineer Sep 22 - Current

- Developed a versatile **component library** using **React** and **Next.js** for **reusable** and **maintainable** code.
- Integrated **GraphQL** for dynamic data fetching from **Contentful CMS**, enhancing content management.
- Contributed to a Next.js TypeScript e-commerce site with **Product Display** and **Listing Pages**.
- Implemented user **authentication** via **GraphQL** and an **anonymous token** system for secure access.
- Utilized **Azure DevOps** and **Git** for version control and established **CI/CD** practices.
- Collaborated with designers to translate **Figma designs** into **functional components**.
- Integrated Style Dictionary to reflect **Figma design changes** in the website on each build.

## Internships

**Apache APISIX** | Front End Intern | China(Remote) Sep 21 - Nov 21

- Developed new **plugin UI forms** using **JSONschema** for Apache APISIX dashboard plugins.
- Implemented **Husky Precommit** in the main repository for improved code quality.
- Introduced **theming** and **pagination** features to enhance user experience.
- Conducted **code reviews** for fellow developers at api7.ai.

**Open Source Promotion Plan** | China(Remote) Jul 21 - Nov 21

- Contributed to **software testing**, frontend development, and plugin pages.
- Enhanced functionality by adding fields, applicable **Cypress test cases**, and Husky precommit.
- Utilized **VM Azure for API testing** based on Chinese IP via **Docker**.
- Conducted code reviews for Apache APISIX within this internship.
