WORK EXPERIENCE

Web UI Developer

Mediavine

📅 2023 - current 📍 Philadelphia, PA

- Evaluated the performance of dynamic content loading with Webpack, saving up to 44 hours per release cycle
- Collaborated on a redesign project using Figma, **producing a 16-page high-fidelity prototype** in four days
- Designed custom Sass mixins and variables standardizing UI components, saving 119 hours on annual maintenance
- Harnessed Git for version control, facilitating collaboration across seven developers with no significant conflicts

HTML/CSS Developer

Techflow

📅 2020 - 2023 📍 Philadelphia, PA

- Used CSS3 media queries to boost accessibility for 1K users
- Deployed React Router for optimized page routing, enhancing navigation flow for over 10,746 active users
- Converted 46 traditional pages to responsive layouts with Bootstrap, **boosting mobile traffic by 17.3%** in a month
- Employed HTML5 semantic elements to create SEO-optimized pages, leveling up visibility for 94 products

Web Development Assistant

NEC Display Solutions

📅 2018 - 2020 📍 Pittsburgh, PA

- Leveraged Vue.js' reactive data binding to automate UI updates, boosting real-time availability for 314 products
- Built a custom animation system with CSS3 transitions
- Implemented Angular two-way data binding to create product filters, driving over 52 daily customer interactions
- Optimized asset management for 14 sites with Webpack, **cutting server storage by 9GB** and speeding load times
