Strategic, innovative, and analytical technology leader with nearly ten years of experience providing organizational leadership in defining software application design and web solutions, specifically in Java. Passionate about software development and Java programming languages.

PROFESSIONAL EXPERIENCE

Resume Worded, New York, NY   2020 – Present
Java Software Engineer (E-Commerce)
- Analyzed system requirements to lead the development of 3 Java/J2EE projects, application enhancements, and various maintenance activities.
- Designed and developed a reporting system based on Crystal Report and Java, generating an increase of 20% in efficiency and performance rate.
- Spearheaded Java O/R mapping, Web service development, and unit tests, resulting in recognition as the top 1 most effective Java Software Engineer.
- Led the ten individuals in the domain team to conduct system analysis and design, build and develop Oracle PL/SQL, and create Java applications.
- Strategically performed SQL tuning activities for an Oracle database, increasing the performance rate by 50% and overall efficiency rate by 30%.

Growthsi, San Diego, CA   2016 – 2020
Java Software Engineer & Development Lead
- Created 30+ feature enhancements to the in-house CRM using Java skills.
- Worked with six professionals in the Oracle financials group to create a method for modifying tables and views to meet all business requirements.
- Trained and developed in the BEA WebLogic 8.1 Portal and Workshop environment, creating portal sites and features for business productivity.
- Worked with BEA WebLogic 8.1 Portal/Workshop, Oracle, Java Mail, Jakarta POI, JSP, and TOAD to accomplish and deliver multiple company projects.

Rofocus, New York, NY   2012 – 2016
Java Developer
- Spearheaded the routing of control from web services to Java services utilizing the Camel Framework, reducing development costs by $150,000.
- Expertly and strategically performed client-side validation using JavaScript, gaining a client and management satisfaction rate of 99%.
- Built, developed, and enhanced numerous testing tools to quickly test codes in a dev environment, successfully reducing production error rates by 15%.
- Integrated APIs for three small vendors to facilitate operations continuity.
- **Tip to jobseeker:** Bullet points should be in format [Action Verb] [Accomplishment] [Metric]; e.g. Developed x that led to y% improvement
